Harman Becker Automotive Systems GmbH | Söflinger Str. 100 | 89077 Ulm

Harman Becker Automotive Systems GmbH

PHOENIX TEST-LAB GmbH
Product Certification
Königswinkel 10

D 32825 Blomberg

Ulm, 2009-04-20

FCC ID: T8G-BE9032

To Whom It May Concern:

We will provide the following text to our customer (who is responsible for creating the user manual), with the information that this text has to be added the users manual for devices which will be soled in the U.S.

The FCC statements (§15.19 Labelling Requirements)

"This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation"

and (§15.21 Information to the User)

under relevant title **"CAUTION TO USERS"** or **"FCC WARNING"** or **"NOTE"**

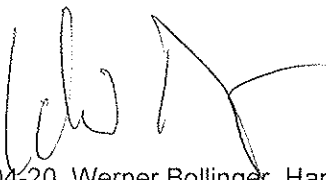

"Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment "

The FCC statement §15.19 Labelling Requirements is also placed in the user manual due to the following reason:

- After this equipment is assembled ex-factory, the user is not easily able to see the FCC text, as this device is generally installed "out of sight" (hidden from user) in vehicles.
- The user manual is the only end-user visible "part".

Thank you for your attention to this matter.

Signatory

Ulm, 2009-04-20, Werner Bollinger, Harman/Becker Automotive Systems GmbH
