Attn: Reviewing Engineer
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

HVIN:

FCC Certification Number:
T8GHERMES

Approval Date:
02/17/2017

Application to Class II Permissive Change

This request is to add new module versions to the FCC ID **T8GHERMES**. The difference between the new module versions and the already certified version is described below.

Explanation:

In the current grant there is the following exclusion included: "The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons"

Because of the fact that it will be installed with distance less than 20cm we did SAR testing – compare attached FCC SAR test report. This FCC SAR test report should be considered within the grant and the above mentioned exclusion corrected.

Thank you for your attention in this matter.

Yours Sincerely,

Stefan Blaschek
Regulatory Compliance Management
