**Subject: Request for Confidentiality**

To Whom It May Concern:

Pursuant to Sections 0.457 and 0.459 of the Commission Rules, We, Ericsson Canada / Ericsson AB, hereby request the Exhibits/Items listed below be withheld from public inspection or disclosure. This is based on the following reasons:

This product is intended for use in an Ericsson Radio Base Station designed and built to state of the art technical specification and implemented with innovative solutions for a highly competitive market. Competition in this market is very intense and therefor the necessity for confidentiality is essential.

Ericsson Canada confidential exhibits / documentation contains Ericsson company proprietary information (or that of our suppliers and contactors), in addition to trade secrets and proprietary information that are not intended for public disclosure. The confidential exhibits in this application are provided exclusively for the radio authorization submission and approval process.

Ericsson Canada has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology and solutions developed and / or implemented by Ericsson.

The documents and user manuals listed below contain highly technical and confidential information about our product and are only available to trained and authorized service personnel. This equipment is not available to be sold to the general public, (nor is it a consumer product) and can only be accessed and installed by trained service personnel under NDA (Non-Disclosure Agreement) with Ericsson. In addition, this product is installed in restricted access areas and is only serviceable by the licensee or his designated technicians.

KRC 118 159/1 Remote Radio Unit RRUS 31 B25 - Request for confidentiality list:

- Schematics
- Block diagram
- Bill of Materials
- Operational and Technical Descriptions
- User Manuals
- Internal Photographs
