Attention: Keith Goshia

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the tables on pdf pages 41 to 43 of the test report do not provide any information as to what the units are. For example, what units are for the column labeled "Values"? Are these dBuV/m, dBm, uV/m? Please provide the units of measurements for all measured values, and the limit to which they are compared.
