Subject: Request for Confidentiality for Manuals

To Whom It May Concern:

We, Ericsson AB, hereby request that the Exhibits/Items listed below be withheld from public inspection in accordance with Sections 0.457 and 0.459 of the Commission's Rules. This due to the following reasons:

As our Base Station (BS) are generally installed in restricted places, public access is not possible all though some types of our BS under certain circumstances can be installed in an unrestricted place, but the doors on all of our BS's are key-locked and can be opened only by authorized personnel. It is therefore individual modules within our BS that should not be revealed to the public.

There are advanced technical and design solutions/information in the Manuals, that we regard as Ericsson proprietary, with actual and potential patents pending. The information can be advantageous to our competitors as well as sources seeking ways to hack past the built in security functionality. These solutions or information thereof are not accessible even for our customers or partners unless a non-disclosure agreement for particular item(s) have been signed.

The BS equipment will not be sold to the general public and the documents can only be accessible by the customers who purchase our BS and accept the conditions and therefore are provided with unique information access tools.
