

Prepared (also subject responsible if other) EWU/PR/HD Keith Goshia		No.		
Approved EWU/PR/H (Thomas Funk)	Checked	Date 10/20/2006	Rev A	Reference TA8AKRC161134-4

Federal Communications Commission
Authorization & Evaluation Division
7435 Oakland Mills Road
Columbia, Maryland 21046
Attention: Equipment Authorization Branch

1 Tune-Up Procedure

All the necessary adjustments will be set in the factory, and no adjustments are needed. The Base Station Controller (BSC) remotely controls the maximum output power level of the Base Station (BS). If the Radio Equipment is not able to maintain the requirements for power output, frequency stability, etc an alarm is sent to the BSC and the fault is corrected or the Radio Unit is disabled.

If additional information is needed, please contact me on the below listed number.
