**Subject: Class 2 Permissive Change for FCC ID: TA8AKRY901468-2**

To Whom It May Concern:

Ericsson AB requests a Class 2 Permissive Change for the above-mentioned FCC Identifier.

This Radio Unit (Dot 2284 B25B66) hardware has not been changed. The reason for this request is to change how the RF exposure was reviewed. We now request that the RF Exposure be reviewed using the "MPE (RF Exposure >20cm)" method instead of having the RF Exposure reviewed at the time of licensing.

The EMF/RF Exposure report submitted as part of the original FCC certification is still valid.

We certify that the applicant nor any party to the application is subject to a denial of Federal benefits, that includes FCC benefits, pursuant to section 5301 of the Anti-Drug abuse Act of 1988, 21 U.S.C. Section 862.

If additional information is needed, please contact me on the below listed number.
