RE: FCC ID: TAVMVL-GPS\_ATCB003290  
Attention: Jay Kim

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that a TCB cannot change the grantee address information. This must be done directly by the FCC. Please provide this information to the FCC. When the FCC has given notice of the change, please provide this information.
2. FYI – no action required. Please note that the rf exposure exhibit states that a -8dBi antenna was used. The manual states that a maximum antenna gain of 0dBi can be used. The actual highest gain antenna useable at 20 cm with the 126mW power delivered to the antenna is about 13.5dBi. please note that documentation should be consistent.
3. Please provide the tune up procedure, or alternately, please provide why the tune up procedure is not necessary.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
