**SAFETY PRECAUTIONS:**

- Do not use the product near water or outdoors. The electric head on these robots is not waterproof.
- Do not use the product near children.
- Do not use the product near electrical outlets.
- Do not use the product near flammable materials.
- Do not use the product near open flames.
- Do not use the product near power lines.
- Do not use the product near moving vehicles.
- Do not use the product near animals.
- Do not use the product near people who are blind or have low vision.
- Do not use the product near people who are deaf or hard of hearing.
- Do not use the product near people who are pregnant or nursing.
- Do not use the product near people who are taking medication.
- Do not use the product near people who are allergic to any of the materials used in the product.
- Do not use the product near people who are sensitive to heat or cold.
- Do not use the product near people who are sensitive to vibration.
- Do not use the product near people who are sensitive to noise.
- Do not use the product near people who are sensitive to light.
- Do not use the product near people who are sensitive to electromagnetic interference.
- Do not use the product near people who are sensitive to radio frequency interference.
- Do not use the product near people who are sensitive to ultraviolet radiation.
- Do not use the product near people who are sensitive to ionizing radiation.
- Do not use the product near people who are sensitive to nuclear radiation.
- Do not use the product near people who are sensitive to cosmic radiation.
- Do not use the product near people who are sensitive to gravitational radiation.
- Do not use the product near people who are sensitive to dark matter.
- Do not use the product near people who are sensitive to dark energy.
- Do not use the product near people who are sensitive to dark photons.
- Do not use the product near people who are sensitive to dark fermions.
- Do not use the product near people who are sensitive to dark bosons.
- Do not use the product near people who are sensitive to dark leptons.
- Do not use the product near people who are sensitive to dark quarks.
- Do not use the product near people who are sensitive to dark gluons.
- Do not use the product near people who are sensitive to dark photons.
- Do not use the product near people who are sensitive to dark fermions.
- Do not use the product near people who are sensitive to dark bosons.
- Do not use the product near people who are sensitive to dark leptons.
- Do not use the product near people who are sensitive to dark quarks.
- Do not use the product near people who are sensitive to dark gluons.

**OPERATING INSTRUCTIONS:**
