# THUNDER TUMBLER®

## RADIO CONTROL 360° RALLY CAR

KEEP THIS PACKAGE FOR REFERENCE AS IT CONTAINS IMPORTANT INFORMATION.

### OPERATING INSTRUCTIONS

- Operation requires 4 AA (1.5V) alkaline batteries (not included) for car and one 9V battery (not included) for remote control.
1. Carefully remove items from package.
  2. Locate the battery compartment on the back of each item (see diagram on right).
  3. Swivel latches on bottom of car to release battery pack and insert batteries.
  4. Switch both car and remote buttons to "ON" position.
  5. For best result, use the car on hard surfaces such as wood or tile.

### GENERAL CONTROLS

### SPINNING ON REAR WHEEL (ACTION BUTTON)

### SAFETY PRECAUTIONS

- Do not operate during thunderstorms or rain.
- Avoid water, sand and snow when operating car.
- Do not submerge car or controller in water.
- Never operate your car on the street or highway.
- Never operate your car on a confined or crowded area, and do not use people or animals as obstacles.
- Do not use your car into furniture, objects or hard surfaces, as this will cause damage to both the object and the car.
- Keep fingers, hair and loose clothing away from the tires, gears and motor while the car is switched "ON".
- Do not leave car or transmitter near sources of heat or under direct sunlight for long periods of time.
- Do not leave car or transmitter outside overnight. Dampness is harmful to interior components.
- Remove all batteries when not in use to avoid accidental operation.
- Adult supervision is recommended when operating this car.

**BATTERY WARNING:**  
 • Do not use old and new batteries.  
 • Always dispose of used batteries properly.  
 • Never attempt to charge, recharge, or reuse old or damaged batteries.  
 • Always dispose of used batteries properly.  
 • Do not use batteries with different capacities or different brands.  
 • Do not use batteries with different voltages or different types.  
 • Do not use batteries with different capacities or different brands.  
 • Do not use batteries with different voltages or different types.  
 • Do not use batteries with different capacities or different brands.  
 • Do not use batteries with different voltages or different types.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
