RADIO CONTROLLED CAR

MUTATES FROM ROBOT TO RACE CAR IN SECONDS!

- Automatically Converts from Robot to Race Car at the Touch of a Button
- Wireless Radio Control
- Available in Two Frequencies for Competitive Play

### SAFETY PRECAUTIONS

- CAUTION:** Always keep clear of car during transformation to avoid potential pinch points.
- Do not operate during thunderstorms or rain.
  - Avoid water, sand and snow when operating your car.
  - Do not submerge car or controller in water.
  - Never operate your car on the street or highway.
  - Adult supervision is recommended when operating this car.
  - Remove all batteries when not in use to avoid accidental operation.
  - Never operate your car in a confined or crowded area, and do not use people or animals as obstacles.
  - Do not run your car into furniture, objects or hard surfaces, as this will cause damage to both the objects and the car.
  - Keep fingers, hair and loose clothing away from the tires, gears and motor while the car is switched to "ON".
  - Do not leave car or transmitter near sources of heat or under direct sunlight for long periods of time.
  - Do not leave car or transmitter outside overnight. Dampness is harmful to interior components.

### BATTERY INFORMATION

- Operation requires 3 "AA" batteries (not included) for car and one 9V battery for radio controller (included).
- Carefully remove items from packaging.
  - Refer to the diagram for battery installation. Unscrew with a Phillips screw driver and rotate lever (A) to unlock the battery door (B). Open the battery door (B), insert 3 "AA" size batteries in the correct polarity shown (C). Close and screw back to close the battery door.
  - Slide open the battery compartment door on the back of the controller. Insert one 9V battery following the correct polarity. Replace the battery compartment door.

**NOTE:** All turning is performed by back wheels.  
Warnings, changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FC:** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.

**BATTERY WARNING:**

- Do not use old and new batteries.
- Do not mix alkaline and carbon-zinc, or rechargeable nickel-cadmium batteries.
- Do not short-circuit the batteries or connect them in series. Do not short-circuit the positive terminal.
- Remove batteries when not in use. Recycle or dispose of exhausted batteries according to Federal, State and local laws. Do not attempt to recharge a 9V battery that is not rechargeable.
- Only use manufacturer specified batteries, charged and/or supplied, if available, specified by the manufacturer.
- Always use, replace, and recharge (if applicable) batteries under adult supervision.
