● **Play music by remote control**

● **Play:** short press **S0**, music starts playing

● **Pause:** short press **S0** again, music pauses

● **Next track:** short press **S1** when music playing

● **Previous track:** short press **S2** when music playing

● **Increase volume:** long press **S1** when music playing

● **Decrease volume:** long press **S2** when music playing

● **If there is no music inside, blue and yellow LEDs will flash together every 2 seconds, and there is "No music" from earphones.**

● **Play music by remote control**

● **Play:** short press **S0**, music starts playing

● **Pause:** short press **S0** again, music pauses

● **Next track:** short press **S1** when music playing

● **Previous track:** short press **S2** when music playing

● **Increase volume:** long press **S1** when music playing

● **Decrease volume:** long press **S2** when music playing

● **If there is no music inside, blue and yellow LEDs will flash together every 2 seconds, and there is "No music" from earphones.**

● **Play music by remote control**

● **Play:** short press **S0**, music starts playing

● **Pause:** short press **S0** again, music pauses

● **Next track:** short press **S1** when music playing

● **Previous track:** short press **S2** when music playing

● **Increase volume:** long press **S1** when music playing

● **Decrease volume:** long press **S2** when music playing

● **If there is no music inside, blue and yellow LEDs will flash together every 2 seconds, and there is "No music" from earphones.**

● **Play music by remote control**

● **Play:** short press **S0**, music starts playing

● **Pause:** short press **S0** again, music pauses

● **Next track:** short press **S1** when music playing

● **Previous track:** short press **S2** when music playing

● **Increase volume:** long press **S1** when music playing

● **Decrease volume:** long press **S2** when music playing

● **If there is no music inside, blue and yellow LEDs will flash together every 2 seconds, and there is "No music" from earphones.**

● **Play music by remote control**

● **Play:** short press **S0**, music starts playing

● **Pause:** short press **S0** again, music pauses

● **Next track:** short press **S1** when music playing

● **Previous track:** short press **S2** when music playing

● **Increase volume:** long press **S1** when music playing

● **Decrease volume:** long press **S2** when music playing

● **If there is no music inside, blue and yellow LEDs will flash together every 2 seconds, and there is "No music" from earphones.**

● **Play music by remote control**

● **Play:** short press **S0**, music starts playing

● **Pause:** short press **S0** again, music pauses

The Federal Communication Commission Radio Frequency Interference Statement includes the following paragraph:

The equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no grantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The user should not modify or change this equipment without written approval from GOLDEN TECHNOLOGY(Zhuhai)CO.,LTD..Modification could void authority to use this equipment.
