Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: TBUAGXISWL

Original Grant Date: 03/06/2017

Applicant: BARTEC

Dear Examiner,

This is to request a Class II permissive change for FCC ID: TBUAGXISWL
, originally granted on 03/06/2017

The major change filed under this application is:

1. WIFI module FCC ID: TBUAGXISWL co-location with WWAN module FCC ID: TBUAGXISWW in end product Tablet PC (FCC ID: TBUAGXISNFC) with SAR issue.
2. Output power is reduced a bit but not higher than the max of the original due to regulatory concern.
3. Antenna gain is lower as compared to the original. PIFA antenna with antenna gain 2dBi is used for this filing.
4. Channel 5600-5650MHz cannot be operated. It is controlled by software/firmware from the manufacturer.

Sincerely yours,

Benedikt Eckert
Product Manager
