

Dear Mr. Derby,

as discussed before.

The battery and the battery door of the MC75Ax-NI will not be installed in the unit. The battery and the battery door will be delivered separate in the shipping box. So the FCC ID will be visual on the unit.

See also following pictures of the shipping box.

Terminal

Battery

Check that the Regulatory Information (above left) \ Quick Start Guide (above right) and NIDirection(big) are put on top of the plastic cover sheet

[3/31] Refer to MC75A0, version QSG (46.13Y06.001) and version RG (46.13Y07.002) and NI version (46.13Y14.001)

Check battery, battery cover and the terminal packed in bags.

See page 11 for battery label

Battery Door Assembly

Motorola, Inc. Enterprise Mobility Division

PART NUMBER: 59-131709-XX
DESC: MC75 AX TERMINAL VA
REV: A
