Overview

This application is for the original approval of UTC Fire and Security model Assy, Bezel,WTI – FCC ID: TCZ-10102917G1. The device is battery powered only. The Assy, Bezel, WTI uses Bluetooth radio chip model ST Microelectronics SPBT2532C2. Reports have been submitted in support of compliance of the device to the necessary requirements. The radio is the identical radio used in the previously approved eKey Fob, manufactured by Supra, so report number SUPR0086 Rev. 01 supports the Bluetooth radio requirements.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

No short term confidentiality requested.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
