

11/14/12

Dear Application Examiner,

{RF Monolithics Inc., DR-WLS1271L; TE6-DR-WLS1271L and DR-WLS1273L; TR6-DR-WLS1273L:}, would like to have your authorization as a modular approval specific to *{the mobile device such as Access Point and Router.....}*

The requirements of Public Notice DA00-1407 have been met and shown on the following statements.

1. "The modular transmitter must have its own RF shielding.":

See attached picture.

2. "The modular transmitter must have buffered modulation/data inputs.":

The data is buffered through the memory.

3. "The modular transmitter must have its own power supply regulation

The Module IC has a built in regulator. See block diagram in the data sheet.

4. "The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(C).":

Please see attached data sheet for the antenna. The antenna connection is via u.FL connector on the module

5. "The modular transmitter must be tested in a stand-alone configuration":

See attached test setup picture.

6. "The modular transmitter must be labeled with its own FCC ID number.":

See attached picture of the module with label.

7. "The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.":

See attached data sheets.

8. "The modular transmitter must comply with any applicable RF exposure requirements.":

See attached test report from test lab.

Please contact me if you have any further questions.

Regards,
