RE: Professional Installation for TP-LINK Models **CPE210 and CPE220**

To Whom It May Concern:

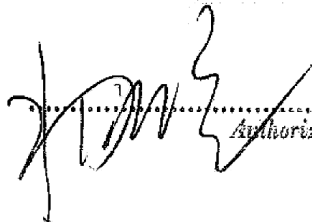

We state that our device requires professional installation based on the following reasons:

- 1, In the view of market, this product is designed for outdoor point to point broadband wireless. It is available through special distribution channels worldwide serving system integrators in the Wireless Internet Service Provider Industry.
- 2, A professional installer with experience in extended Ethernet cable deployment, tower mounting, and TP-LINK Pharos system knowledge will be required to properly enable the equipment.
- 3, The intended use is generally not for the general public. It is generally for industry/commercial use.

Please contact me if there is any information you may need.

Sincerely,

*For and on behalf of*  
TP-LINK TECHNOLOGIES CO.,LTD.
