I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. It is required to put information to user into users manual under FCC part 15.21.

Please provide a revised user manual with required information to user.

Below please see the information to user copied from FCC part 15.21 for your reference:

“Section 15.21 Information to user.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.”
