The image shows the back of a white wireless router. The device has a perforated metal grille for ventilation. At the top, there are two white antennas. On the left and right sides, there are ports for power and Ethernet. A red rectangular box is drawn in the center of the grille, with the text "Label Location" written inside it in red. The text is centered within the box and is in a sans-serif font. The background is a solid blue color.

Label Location
