TP-Link Technologies Co., Ltd.

Building 24 (floors 1,3,4,5) and 28 (floors1-4),
Central Science and Technology Park, Nanshan, Shenzhen, China

GUI Declaration letter

Date: 2013-08-27
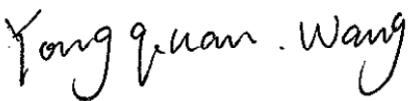

FCC ID: TE7TDW8980V1

To Whom It May Concern:

We, TP-Link Technologies Co., Ltd. declare that the channel selection in the WLAN driver, is confined to the supported frequency band 802.11 a/n between 5.15 to 5.25 GHz and 5.725 to 5.8250GHz. The end user can only select the channel of the supported bands. Any other channel out of these frequency ranges can only be modified by using a special tool which is not be released；Furthermore, the firmware is locked by encrpytion tachniques and cannot be changed or modified by end user.

Regarding hardware protection, TDW8980V1's EEPROM adopts OTP (one time programming) architecture to storage RF parameters, country code, product information and others. User can not modify any setting parameter of OTP.

Thank you for your attention.

Sincerely yours,

Yong quan . Wang
