Federal Communications Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

Gentlemen:

MaxID respectfully requests confidentiality of certain materials provided with the submission of the iDL300 under FCC ID: TFT-IDL300 in accordance with FCC Regulations 0.457(d) and 47 CFR 0.459

The confidentiality request applies to the following exhibits:

11-0217 - Schematics.pdf
11-0217 - System Block Diagram.pdf
11-0217 - Theory of Operation.pdf

Pursuant to DA 04-1705 of the Commission's public notice, MaxID also requests short-term confidentiality for the following exhibits:

MaxID iDL300 WWAN SAR DUT Internal Photos FCC.pdf
MaxID iDL300 WWAN SAR DUT External Photos FCC.pdf
MaxID iDL300 WWAN SAR Test Setup Photos FCC.pdf
11-0217 – Test Setup Photos.pdf
11-0217 – External Photos.pdf
11-0217 – Internal Photos.pdf
11-0217 - Manual.pdf

MaxID has requested short term confidentiality of the SAR report photo exhibits because they contain internal, external and test setup photos of the device. These exhibits have been submitted in three separate files, as listed above.

If prior to 45 days the product goes to market, MaxID will inform the commission so that the short-term confidentiality exhibits can be released to the public record.

The iDL300 has been developed at considerable effort and expense by MaxID. These items are considered as Trade Secrets and therefore public access to the proprietary material could possibly result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

Name: Steve Bowen

Signature:
