Re: FCC ID: TFT-IDL300

To Whom It May Concern:

The following application is submitted on behalf of our client, MaxID Corp, for evaluation of their model iDL300 for certification under FCC Part 15.225.

The iDL300 contains a 13.56MHz RFID reader as well as two additional single modular approved devices, GSM/GPRS/UMTS modem FCC ID: TFT-SL8080 and 802.11b/g/Bluetooth FCC ID: TFT-W2CBW003. The MaxID Corp iDL300 portable handheld computer was evaluated for RF exposure with results provided in the SAR report included in this application.

All radios can transmit simultaneously therefore the iDL300 host has been evaluated for radiated inter-modulation products for all combinations of simultaneous transmission and found to be in compliance.

Sincerely,
