Re: FCC ID: TFT-SL8080

To Whom It May Concern:

The following application is submitted on behalf of our client, MaxID Corp, for evaluation of their module certified under FCC ID: TFT-SL8080 for a class II permissive change.

The purpose of this class II permissive change is to include FCC ID: TFT-SL8080 to the MaxID Corp. iDL300 portable handheld computer FCC ID: TFT-IDL300.

The iDL300 contains a 13.56MHz RFID reader as well as an additional single modular approved device, WiFi/BT Module FCC ID: TFT-W2CBW003. The MaxID Corp iDL300 portable handheld computer was evaluated for RF exposure with results provided in the SAR reports included in this application.

All radios can transmit simultaneously therefore the iDL300 host has been evaluated for radiated inter-modulation products for all combinations of simultaneous transmission and found to be in compliance.

Sincerely,
