

June 23, 2008

Motorola authorizes MaxID with their certified test lab RFI to use the G24 documentation supplied by Motorola for testing and certification of MaxID IDL3ID01 product for regulatory and carrier NW approval. Documents supplied for use includes, test reports and the actual Motorola exhibits used for the G24 FCC submission, which were supplied under NDA directly to RFI.

The following exhibits may be used for the filing for regulatory approval, but you must protect the confidentiality of the info in your filing process. MaxID and their test lab must request confidentiality with the regulatory agency when submitting the three exhibits below.
