Subject: Device Model Equivalency Declaration

FCC ID: TH01141623

To Whom It May Concern:

DreamStation 2 CPAP supports the following models:

- DSX510H11C
- DSX510T11C
- DSX520H11C
- DSX520T11C
- DSX420H11C
- DSX420T11C
- DSX410H11C
- DSX410T11C
- VAX520H21C
- VAX520T21C
- VAX520T21C15
- DSX520T11C15

All the models listed above are built using the same PCBA (Printed Circuit Board Assembly). Furthermore, the application firmware loaded on to each model is identical as well. The application firmware task that is responsible for controlling the radios is the identical for all models. There is no difference in how the radios are controlled between the model types.

Best Regards,
