Request for Confidentiality

Date: April 10th 2013

Subject: Confidentiality Request for: FCC ID TIADC310

Pursuant to FCC 47 CFR 0.457(d) and 0.459 and IC RSP-100, Section 10, the applicant requests that a part of the subject FCC application be held confidential.

Type of Confidentiality Requested	Exhibit
<input type="checkbox"/> Short Term	<input checked="" type="checkbox"/> Permanent
<input type="checkbox"/> Short Term	Block Diagrams

<input type="checkbox"/> Short Term	Schematics
<input type="checkbox"/> Short Term	Test Setup Photos
<input type="checkbox"/> Short Term	<input type="checkbox"/> Permanent*
	User's Manual

*Note: We request that the internal photos be kept confidential because our product is typically installed on poles inside traffic monitoring equipment and not accessible by the general public, but by a technician. The general public therefore does not have access to an internal view of our product. Public disclosure of this information might be harmful to the company and provide unjustified benefits to our competitors. Additionally, we sell either the unit in a completely encapsulated form where you cannot even get to the inside of the unit, or encapsulate the PCB components, so there are no serviceable parts at all, the only option being to replace the whole radar with a new one.

Houston Radar LLC has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage we have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Permanent Confidentiality:

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

Short-Term Confidentiality:

The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of 180 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Applicant is also aware that they are responsible to notify ACB in the event information regarding the product or the product is made available to the public. ACB will then release the documents listed above for public disclosure pursuant to FCC Public Notice DA 04-1705.

NOTE for Industry Canada Applications:

The applicant understands that until such time that IC distinguishes between Short Term and Permanent Confidentiality, either type of marked exhibit above will simply be marked Confidential when submitted to IC.

Sincerely,

Vipin Malik.
