Subject: answer: Orient Direct Inc., FCC ID: TIYSPRACHTAURABT, Assessment NO.: AN05T5055, Notice#1

Hi Helen,

Pls see our answer below.

Question #1: Please provide side view of EUT photos to show I/O ports. Please also provide additional external photos of accessories, e.g. AC/DC adapter, cable(s) and microphone.  
<answer>pls see additional external photos attached.

Question #2: The user manual in the filing is "User Interface" only, which does not provide enough information, e.g. Operation/Application Description, features, etc. The file entitled "Theory of Operation" actually provides more information. On the other hand, the user manual does not contain user information as specified in FCC15.21 and RF exposure statement as specified in FCC 15.247(i). Please resubmit user manual exhibit.  
<answer>revised manual is attaced.

Question #3: The antenna specification in the filing shows the antenna gain is 2.5dBi(max), the test report indicates the antenna gain is 3.6dBi (max). Please verify which one is correct, and resubmit revised document accordingly.  
<answer>report is revised to show correct gain 2.5dBi(max).

Question #4: Page 9 of test report indicates "The EUT is connected to a test kit and to a Laptop Computer Via a RS-232 cable", which does not agree with the setup photos, please explain.  
<answer>p.9 of report is revised.

Question #5: A typo on page 7 of test report: RS231?  
<answer>p.7 of report is revised to RS232.

Thanks,

Claire
