- Standby time: 200 hours, talking time: 6~8 hours
- Easy one-touch operation
- Multi-functions: volume adjustable, mute function, voice dial, redial etc
- Better call quality, less interference and faster connections
- Completely compatible with Bluetooth™ V1.2 and V1.1 and also can connect with other Bluetooth™ devices, e.g., PDAs, Laptops, Computers
- Mini-sized: 70\*23\*14.2 mm
- Light weight: 8 grams (including battery)
- Security: encrypted link
- Range: up to 10 meters (30 feet)
- Bluetooth™ V1.20 wireless technology

## Box content and Picture

- Mini Bluetooth headset
- Travel charger 100V/240V
- Ear-hook
- Earplug sponges
- User manual

## Getting Started

### Charging Battery

The Headset comes with a replaceable and rechargeable battery included, you can charge the battery independently or with the headset. The battery is not fully charged when it is new. For first time use, it takes 2 hours to fully charge the battery. Afterwards, it will take about 1 hour to fully charge the battery. With the battery fully charged, the talking time will be 6 to 8 hours, and the stand-by time will be about 200 hours.

1. Plug the travel charger into an available AC supply socket (You are suggested not to use the vehicle charger for the first time.).
2. Connect the charger with headset as shown on the picture. The red indicator of headset will turn on when charging. At the same time, the red Indicator on the charging cable will turn on.
3. When the battery is full, the red indicator of the headset and also the red indicator on the charging cable will turn off.

### Buttons Function

K1 button: Power on/off; Answer calls; Paring; Voice dialing

K2 button: Increase volume

K3 button: Decrease volume; Recall

-Press K2 and K3 at the same time: Mute function

### Turning the Headset On or Off

- 1.To turn the headset on

Press K1 button for about 8 seconds, you will hear two high tongs , and the blue indicator of the Headset will flash. The headset is now turned on.

- 2.To turn the Headset off

Press K1 button for about 3 seconds, you will hear two Low tongs , The Red indicator of the Headset will flash quickly several times, and then the Headset will turn off.

- 3.When the red indicator flashes slowly, it means the headset energy is not enough, And Headset remind by “DU, DU” sound.

### Pairing the Headset

You are required to pair the Headset with your mobile phone before using the Headset.

Step1: The Headset must be powered off before initiating pairing. When initiate pairing, Keep pressing K1 button for 11 seconds until blue and red indicator of the Headset flash alternately.

Step2: Initiate pairing process on your Bluetooth mobile phone to pair the Headset. (Detailed steps please refer to Mobile

phone manual). After research complete, you will find a new device named “BTK-12” in the list of the Bluetooth.

Step 3: You will be required to input Pin-code. Please input the Headset Pin-code:0000 and carry out Pairing Process.

(Note:0000 is a default Pin-code pre-stored in the Headset).

### **Notes:**

1. If the Headset is not in pairing mode, your mobile phone won't find the headset. Please set the Headset into pairing mode before letting your Mobile Phone research for the Headset.
2. The Headset Pair mode will continue about two minutes, the Headset will automatically power off if pairing can't be completed within the time. So you must repeat steps 1 to 3 until Pairing succeeds.

### **Making and Answering/Ending Calls**

Once the Headset is successfully paired with your phone, you can use the Headset to make and receive calls. The Headset can be used with voice dialing if your phone supports this function. For detailed operation on voice control, please refer to the user manual of your mobile phone.

#### **Making Calls**

1. Using voice dialing

Press K1 button, waiting for a beep and say the name of the person whom you want to call.

2. Using mobile phone keys to make a call.

Dial the number on the mobile phone as you normally do. Once the call has been set up, the sound will be transmitted to your Headset automatically.

3. Repeat call

Press K3 button long time, you can repeat latest call.

#### **Answering Calls and Ending Calls**

When the Headset is powered on, and there is an incoming call, you will hear a musical beep, and also the blue indicator will change to a quick-flashing mode (When the Headset is in stand-by, the blue indicator will be in a slow-flashing mode.)

1. When the Headset rings, Press the K1 button to answer.
2. Adjust the Headset volume by pressing the K2 to increase the volume or K3 to decrease the volume. (By pressing discontinuously)
3. End calls by pressing K3 for 3 sec or don't press any button.
4. When the Headset is powered off and a call coming, press K1 button for 8 sec to turn on the Headset, then press K1 button again to answer call.

Note: Due to the different design of some mobile phones, an auto-disconnect may happen even when the Headset is powered on. In that case, the Headset won't ring when there is an incoming call. Press K1 button for 1 sec to reconnect the Headset with mobile phone for an incoming call.

#### **Mute**

Press both K2 and K3 keys for one second at the same time for a mute function. Press K2 for one second at the time to disable mute function.

#### **Connect with a PC or PDA**

You are allowed to connect the Headset with Bluetooth enabled PC or PDA that is with Audio Gateway Profiles supported.

##### **-PC**

A Bluetooth USB Dongle should be connected with the PC first, and set up the Bluetooth software ( The operation guide of setting up, please check the user manual of your Bluetooth USB Dongle ). After the set-up is completed, you may then pair and connect the PC with the headset through the software.

##### **-PDA**

Only Bluetooth compatible PDA can set up a connection with the headset. Please check the user manual of your PDA to see how to pair and connect.

#### **Low Battery**

When the red indicator starts to flash, it indicates that the Headset is running on low battery. Please charger the Headset or change a new battery as soon as possible.

## **Important Information**

### **Trouble Shooting**

Battery care

- Only qualified Service Centers are authorized to remove or replace the battery.
- The rechargeable battery has a long service life if treated with care.
- The battery can only be charged in a temperature range of 10 to 45 .
- Use the battery in room temperature for maximum battery capacity.
- The battery capacity may be reduced if operation in a cold environment.
- The Headset has to be recharged every two months, when it is not in use during a long time.

### **About Pairing**

What is pairing

Pairing is a process of associating Bluetooth devices with each other, It will establish a permanent security link between the devices and enable and enable quick access to the services provided without need to enter passkeys.

### **Bluetooth Passkey**

Each mini headset has a default passkey 0000 for pairing, which is stored in its internal memory. You are usually required to enter the passkey 0000 in a pairing process with a Bluetooth mobile phone or other devices, however it depends on the kinds of Bluetooth device. Please refer to the users' manual of the devices for the specific operation.

Paired devices remain paired even when:

- One of the devices is powered off.
- A service connection is interrupted or the service stopped
- One or both devices are restarted.

### **Reset**

If for any reason that the headset remains non-function, it may be reset by the following method:

Please turn off the headset, check if the battery is already run down. If it is, you just need to charge the battery or change a new battery. If not, please delete the paired information records on your mobile phone, and re-pair and re-connect with the mobile phone again.

**Warranty Card**

(A)

**Remarks:**
