Charging the headset
Your headset uses a rechargeable battery. You must charge the battery fully before using the headset for the first time.
Simply plug in provided USB cable to USB port then to USB Car Charger / Adaptor / Notebook Computer / Desktop Computer. Headset will start charging. The red indicator of headset will turn on when charging. When the battery is full, the red indicator of the headset will turn off.

USB charging cable

1) Charge the headset until the red light on the headset turn off.
2) The headset will be fully charged in approximately 1-2 hours.
3) Remove the USB cable from the charging socket..

IMPORTANT: The headset cannot be used while charging.

BASIC OPERATIONS
Turning the headset on/off
1. To turn the headset on
Press and hold K1 Button for about 3 seconds, the blue indicator of the headset flashes for 3 times. The headset is now turned on.

IMPORTANT: Once you turn on the headset again each time, there will be an auto-connecting between the headset and the mobile handset which is resumed. For pairing, please refer to "Pairing". Depend on your phone type, the actual operation may vary.

2. To turn the headset off
Press and hold K1 Button for about 4 seconds, the red indicator flashes for 3 times, then off. The headset will be turned off.
3. When the blue indicator flashes red during standby mode, it means the headset is on low battery, please charge the headset.

Pairing
Pairing will create a unique and enciphered wireless link between two Bluetooth enabled devices, such as your Bluetooth phone and Bluetooth headset.
1. Ensure that the headset is off (see "To turn the headset off" section).
2. Press and hold the K1 Button for about 5 seconds until the indicator light alternately flashes blue and red.
3. Set your Bluetooth phone to discover the headset by following your phone's guide. Typically, the steps involve going to a 'Setup', 'Connect', or 'Bluetooth' menu on your phone and then selecting the option to discover Bluetooth devices.

4. Your phone will find the "BTK-308" headset and ask if you want to pair with it. Confirm this by pressing the "Yes" or "OK" key.
5. Enter a passkey or PIN code "0000" (4 zeros), then press the "Yes" or "OK" key.

IMPORTANT: If the pairing can't be completed within 60 seconds while the pairing mode is activated, that means the pairing is unsuccessful, please repeat Step 1 to Step 5 to pair the headset and the mobile phone again.

Making a call
Using the phone's keypad
1. Dial number on the keypad or select the contact name from the contact list of your mobile phone.

Dimensions (L X W X T): 47.5 X 18.5 X 11.3 (mm)
Battery Type: Rechargeable Lithium Polymer battery
Weight: 10.5 g (excluding accessories)
*Depending on the phone type and usage, the actual time may vary.

FCC Information
This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Federal Communications Commission (FCC) Statement
This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

Tested to comply with FCC standard. FOR HOME OR OFFICE USE.

Warning :
This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment & This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

Correct disposal of this product

(Waste Electrical & Electronic Equipment)This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life.
To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.
Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.
