# BTK-703 Bluetooth Headset User Manual

Thank you for purchasing the Bluetooth Headset BTK-703, we hope you will be delighted with its operation.

Please read this user's guide to get started, and to make the best use of the headset's many features.
Driving safety

1. When you are driving a car, driving is your first responsibility.
2. When using your headset while driving, follow local regulations in the country or region you are in.

BEFORE USING YOUR HEADSET

Checking phone compatibility

Your headset is compatible with most Bluetooth phones that are compliant with Bluetooth version V2.1 + EDR and support the headset and/or hands- free profile(s). Ensure that your phone has Bluetooth capability by visiting your phone manufacturer's web Site.

Your headset overview

K1 Button: Turn on/ Turn off/ Pairing/ Answer/ End/ Voice Dial/ Reject/ Transferring a call/ Redial

K2 Button: Increase Volume
K3 Button: Decrease Volume

Checking the accessories

Make sure you have the following items with your headset: Travel adapter, Manual, Ear-hook.

Charging the headset

Your headset uses a rechargeable battery. You must charge the battery fully before using the headset for the first time.
1. Plug the travel charger into an AC socket.
2. Connect the charger with headset as shown on the picture. The red indicator of headset will turn on when charging.
3. When the battery is fully charged, the red indicator will change to blue.

1) Depending on your country, the travel adapter may appear different from the above illustration.
2) When the headset is in low battery, the headset will flash red.
3) The headset will be fully charged in approximately 1-2 hours.
4) Remove the travel adapter from the AC socket.

WARNING: Do not attempt to charge the headset with anything other than the travel adapter provided. Using unauthorized travel adapter may damage the headset.

IMPORTANT: The headset cannot be used while charging.

BASIC OPERATIONS

Turning headset on/off

1. To turn the headset on
Press and hold K1 Button for about 4 seconds, the blue indicator of the headset will flash 3 times rapidly. The headset is now turned on.

2. To turn the headset off
Press and hold K1 Button for about 3 seconds, the red indicator will flash red 5 times rapidly. The headset will be turned off.

3. When the blue indicator flashes red, it means the headset is on low battery, please charge the headset.

Pairing

Pairing will create a unique and enciphered wireless link between two Bluetooth enabled devices, such as your Bluetooth phone and Bluetooth headset.

1.   Ensure that the headset is off (*see "To turn the headset off" section*).

2. Press and hold the K1 Button for about 4 seconds until the indicator light alternately flashes blue and red.

3. Set your Bluetooth phone to discover the headset by following your phone's guide. Typically, the steps involve going to a 'Setup', 'Connect', or 'Bluetooth' menu on your phone and then selecting the option to discover Bluetooth devices.

4.   Your phone will find the "BTK-703" headset and ask if you want to pair with it. Confirm this by pressing the "Yes" or "OK" key.

5.   Enter a passkey or PIN code "0000" (4 zeros), then press the "Yes" or "OK" key.

IMPORTANT: If the pairing can't be completed within 90 seconds while the pairing mode is activated, that meant the pairing was unsuccessful, please repeat Step 1 to Step 5 to pair the headset with the mobile phone again.

Pairing Your Headset with Two Mobile Phones (Multipoint connecting)

BTK-703 supports a Multipoint function to allow simultaneous pairing with two mobile phones.
1.   Follow the pairing procedure as instructed in "Pairing" section to pair the headset with the first mobile phone.
2.   Turn off the headset.
3.   Repeat the same pairing procedure on the second mobile phone.
4.   On the first mobile phone's menu, active its Bluetooth connection with the headset.

Notes: If the headset connected with two mobile phones, when there is a call in or call out on one phone, the other phone will be disconnected with the headset temporarily. Once the call is off, the headset will connect with the disconnected mobile phone automatically

Wearing the headset

Wear the headset on your ear. In general, you will get better performance when there are no obstructions (including parts of your body) between the headset and the phone. Depending on what ear you are going to wear the headset, simply adjust the ear-hook accordingly.

Making a call

Using the phone's keypad

1. **Dial number on the keypad or select the contact name from the contact list of your mobile phone.**
