

BTK-718 Bluetooth Headset User Manual

BEFORE USING YOUR HEADSET

Checking phone compatibility

Your headset is compatible with most Bluetooth mobile phones that are compliant with Bluetooth version V2.1 + EDR and support the headset and/or hands-free profile(s). Ensure that your phone has Bluetooth capability by visiting your phone manufacturer's website.

Your headset overview

K1 Button: Turn on/ Turn off/ Pairing/ Answer/ End/ Voice Dial/ Reject/ Transferring a call/Last Number Redial

K2 Button: Increase Volume

K3 Button: Decrease Volume

Checking the accessories

Make sure that you have the following items with your headset: USB Car Charger , USB Cable, Manual, Ear-hook.

BASIC OPERATIONS

Turning the headset on/off

1. To turn the headset on

Press and hold K1 Button for about 3 seconds, the blue indicator of the headset will flash 3 times rapidly. The headset is now turned on.

2. To turn the headset off

Press and hold K1 Button for about 3 seconds, the red indicator will flash red 5 times rapidly. The headset will be turned off.

3. When the blue indicator flashes red during standby mode, it means the headset is on low battery, please charge the headset.

Pairing

Before using your headset for the first time, you must pair it with your Bluetooth enabled phone.

1. Ensure that the headset is off (see "To turn the headset off" section). And the mobile phone Bluetooth setting is activated.

2. Press and hold the K1 Button for about 4 seconds until the indicator light alternately flashes blue and red, your headset is under pairing mode.

Your **BTK-718** Bluetooth headset adopts Proximity Pairing Technology to simplify the Bluetooth setup process. For more details, please kindly check (3a, 4a, and 5a) item.

3(a). Once your headset is under pairing mode, it will search the nearest Bluetooth devices, like your Bluetooth mobile phone automatically.

4(a) Your Bluetooth mobile phone will indicate "**BTK-718**" headset and ask if you want to pair with it. Confirm this by pressing the "Yes" or "OK" key.

5(a) Enter a passkey or PIN code "0000" (4 zeros), then press the "Yes" or "OK" key. Once the blue indicator flashes twice instead of blue and red indicator flashing, your headset has been connected with your Bluetooth mobile phone.

Note: If the Bluetooth version of your Bluetooth mobile phone is V2.1, you will not need to enter a Passkey (Pin code) during above pairing process.

You can also pair our **BTK-718** headset with your Bluetooth mobile phone in

the normal way, for more details please kindly check (3b, 4b, and 5b) item:
3(b). Set your Bluetooth phone to discover the headset by following your phone's guide. Typically, the steps involve going to a 'Setup', 'Connect', or 'Bluetooth' menu on your phone and then selecting the option to discover Bluetooth devices.

4(b). Your phone will find the "BTK-718" headset and ask if you want to pair with it. Confirm this by pressing the "Yes" or "OK" key.

5(b). Enter a passkey or PIN code "0000" (4 zeros), then press the "Yes" or "OK" key. Once the blue indicator flashes twice instead of blue and red indicator flashing, your headset has been connected with your Bluetooth mobile phone.

IMPORTANT: If the pairing can't be completed within 90 seconds while the pairing mode is activated, which means the pairing is unsuccessful, please repeat Step 1 to Step 5 to pair the headset and the mobile phone again.

Pairing Your Headset with Two Mobile Phones (Multipoint connecting)

BTK-718 supports a Multipoint function to allow simultaneous pairing of the headset with two mobile phones.

1. Follow the pairing procedure as instructed in "Pairing" section to pair the headset with the first mobile phone.
2. Turn off the headset.
3. Repeat the same pairing procedure on the second mobile phone.
4. On the first mobile phone's menu, activate its Bluetooth connection with the headset.

Wearing the headset

Wear the headset on your ear. In general, you will get better performance when there are no obstructions (including parts of your body) between the headset and the phone. Depending on which ear you are going to wear the headset, simply adjust the ear-hook accordingly.

Making a call

Using the phone's keypad

1. Dial number on the keypad or select the contact name from the contact list of your mobile phone.
2. Press phone's "send/call" key.

Voice Dialing

Please ensure your mobile phone supports voice dialing function and the voice tag assigned for this feature.

Connected with one mobile phone:

1. Short press K1 Button once.
2. You'll then hear the voice-activation tone, say the name of the person you wish to call.
3. Shortly press K1 Button to stop the voice dialing.

Connected with two mobile phones:

This feature will be available on only one mobile phone, which it's firstly connected with the headset. Repeat above step 1~ step 3 to accomplish this function.

Ending a call

1. Shortly press K1 Button once during a call.
2. End a call from phone's keypad.

Answering a call

1. Press the K1 button briefly, when you receiving an incoming call.
2. Answer the call via your phone's keypad. You may then need to transfer the call to the headset by pressing the K1 Button for 2 twice (depending on your phone setting).

Last number redialing

Connected with one mobile phone:

Press K1 Button twice to make the last number redial.

Connected with two mobile phones:

Press K1 Button twice to make the last number redial.

This feature will be available on only one mobile phone which it's firstly connected with the headset.

Note: Depend on your phone type, the actual operation may vary.

Rejecting an incoming call

Press and hold K1 Button for 2 seconds to reject a call.

Adjusting the volume

Press K2 Button to increase the volume level and press K3 Button to decrease the volume level.

Transferring a call

Headset to phone: Press and hold K1 Button for 3 seconds when you are on the phone call. Then, the phone call would be transferred from headset to phone.

Phone to Headset: Press and hold K1 Button for 3 seconds when you are on the phone call. Then, the phone call would be transferred from phone to headset.

Note: For different mobile phone setting, you could only transfer a call by press the mobile phone's keypad. Depend on your phone type, the actual operation may vary.

Muting the Microphone

You can put a call on hold by muting the microphone.

To turn on/turn off the Muting Microphone function: Press the K2 Button & K3

Button at the same time.

Storage of the headset

1. Always store the headset with the power off and make sure it is safely protected.
2. Avoid storage at high temperatures (above 50°C) such as in a hot vehicle or in direct sunlight. (Storage at high temperatures can damage performance and reduces battery life).
3. Do not expose the headset or any of its supplied parts to rain or other liquids.
