

Model:MW 337BT

Introduction

This product is suitable for the 6 v / 12 v / 24 v battery status in real time measurement, through unique detection method, monitoring the battery health, data is transmitted to the mobile phone via bluetooth users using a smartphone APP can real-time monitor the status of car batteries. Another product provides a conversion interface, can be used to connect the battery charger, for the battery to charge.

Technical Specification

BATTERY SENSE 6V/12V/24V

Instruction

Please read the following instructions step-by-step before using the adaptor.

- 1.) Download APP, can go to the APP Store or Google play
- 2.) the product is connected to the battery,
 - 2.1, the red terminal connected to the positive pole of the battery.
 - 2.2, the black terminal connected to the cathode of the battery.
 - 2.3, connect the battery polarity must be very careful, such as connection error, may lead to abnormal products.

- 3.) ID code, password for mobile connectivity products, can be found on the packaging or product.
- 4.) when using a cell phone connectivity products need to open the bluetooth phone.

Warning

1. Meaning of crossed-out wheeled dustbin: Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities.
2. If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health

and well-being.

3. When replacing old appliances with new ones, the retailer is legally obligated to take back your old appliance for disposal at least free of charge.
4. changes or modifications not expressly approved by the party responsible for compliance could void the user' s authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
