Dear Examiner,

This is to request a Class II permissive change for FCC ID: [TLZ-BT253](#)

, originally granted on 07/07/2008

The major change filed under this application is:

[For certified full module to alternate a portable configuration as tablet PC, per 15.212, it is required to make sure RF exposure condition are met.](#)

[According to KDB 447498 item 1\)c\) and item 4\)b\) means transmitter in tablet PC needs SAR evaluation when source-based time-averaged conducted output power is above \$60/f\$ \(\$60/f=60/2.441=24.58mW\$ \). Due to the maximum power of this BT device is 1.5 mW \(less than 24.58mW\), the SAR evaluation for the Class II Permissive Change is not necessary.](#)

If you have any questions regarding this application, pls feel free to contact me.

Sincerely yours,

Ivan Chen / Manager
