

AzureWave Technologies, Inc.

Address: 8F ., No.94, Baozhong Rd. , Xindian Dist. New Taipei City Taiwan

Module Approval Letter

Date: 2018/9/20

FCC ID: TLZ-CU362

The following attestation addresses the requirements to support modular approval:

Modular approval requirement		Yes (provide brief statement)	No *
1	The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	Yes, the radio frequency circuitry shielded.	
2	The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	Yes, the module has buffered modulation/data input.	
3	The module must contain power supply regulation on the module.	Yes, the module has its own power supply regulation.	
4	The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	Yes, the module complies with the provision for built-in Antenna.	
5	The module must demonstrate compliance in a stand-alone configuration.	Yes, please refer to the test reports.	
6	The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements).	Yes, FCC ID information is showing on module.	
7	The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements.	Yes, compliance requirements instructions are provided in the instruction manual.	
8	The module must comply with RF exposure requirements	Yes, please refer to the test reports.
