Dear Sir or Madam:

I would like to request your permission to remove three exhibits, which were uploaded in the cover letter folder of the above referenced filing. The three documents in question contain answers and comments supplied by the lab as a result of our TCB request for additional information. The info contained in these documents is no longer relevant for understanding the basis for decision on certification, because that info is already included in other supporting exhibits. The lab is concerned about some of their comments and has requested that we remove these exhibits from public view.

Sincerely,

Bruno Clavier
