Re: FCC ID: TMAELK-6051

To Whom It May Concern:

The following application is submitted on behalf of our client, ELK Products, Inc., for evaluation of their model ELK-6051 for certification under FCC Part 15.247.

The ELK-6051 is a CO detector containing an ELK-6051 Printed Circuit Board Assembly (PCBA) transceiver. It also contains circuitry for application control and communications with the CO detector circuits.

The ELK-6051 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first name "Sam" being particularly prominent.
