Re: FCC ID: TMB-EM0069 and IC: 6028A-EM0069 models

This letter is intended to confirm that the only difference between model # EM-0069A and # EM-0069B is the following:

Model # EM-0069A module uses a PCB Trace Inverted-L Antenna

Model # EM-0069B module uses a DiPole Antenna

Sincerely,

A handwritten signature in black ink that reads "Teresa A. White".
