## Bluetooth Car Kit

### User Manual

Bluetooth Car Kit should be used with the compatible devices which support bluetooth wireless technology. This allows you the freedom to make any calls at any time.

Please read this user manual carefully before using the Car Kit, and also read your device's user manual regarding the bluetooth function, and pay attention to those important safety and maintenance information.

Please keep the Car Kit away from children.

### Specifications

Transmission Power	Class 2
Operation Range	Up to 10 Meters
Frequency Range	2.4-2.48GHz
Battery	Built-in Rechargeable 3.7V /600mAH Li-polymer Battery
Charging Voltage	DC4. 75-5. 25V
Charging Time	About 3 hours
Talk Time *	Up to 12 hours
Standby Time *	Up to 450 hours
Dimensions(mm)	L115 x W45 x H18
Weight	71.3g (with clip)

\*The time mentioned above may vary due to user's operation mode and device settings.

### Basic Operations

#### Charging Your Car Kit

- Prior to using for the first time, please fully charge the Car Kit. The indicator light turns red when the Car Kit is charging and it will turn blue after being fully charged.
- Approximately 3 hours are required to fully charge the Car Kit.
- When the Car Kit is running out of battery, the Car Kit will beep as warning. The Car Kit will switch off automatically when the battery is drained.
- Please charge the Car Kit in time to prolong the battery's using life (Charging indication will be delayed for a few minutes if the Car Kit has not been used for a long time or the battery is drained).

#### Note:

- Use only the supplied charger to charge the Car Kit, or it will be dangerous.
- Do not attempt to force open the built-in battery since this could damage the Car Kit.
- If left unused, a fully charged Car Kit will lose its power automatically. It is recommended to charge the Car Kit each 3 months.
- Do not leave the Car Kit in a too hot or too cold condition (best between 15°C and 25°C) which may affect its operations even it is fully charged.
- Do not dispose of the Car Kit into a fire or water.

#### Turning on the Car Kit

In OFF MODE, press and hold the MFB for 2-3 seconds until you hear a beep. When indicator light flashes blue, the Car Kit is in STANDBY MODE. If it is not paired with any devices, the indicator light will flash blue twice every 3 seconds. After being paired, the indicator light will flash blue every 10 seconds.

#### Turning off the Car Kit

In ON MODE, press and hold the MFB for 5-6 seconds until you hear a beep and the indicator light flashes red twice.

#### Pairing Your Car Kit with a Bluetooth Mobile Phone

- Place your Car Kit and Mobile Phone within 1 meter of each other, ensuring the car kit is off.
- Press and hold the MFB for 4-5 seconds until the indicator light flashes blue and red alternately, the Car Kit enters into PAIRING MODE.
- Activate the bluetooth function on the phone, search bluetooth devices (See the user guide of your phone for instructions).
- Select "BK063RD" from the found devices list of the phone.
- Enter the passkey "0000", confirm to pair the Car Kit with your phone. (If the pairing cannot be completed within 5 minutes after the PAIRING MODE has been activated, the Car Kit will enter into the

STANDBY MODE. Repeat above steps to do the pairing again).

- Ensure the distance between your Car Kit and phone is within 10 meters, and without any obstacles, you can use the Car Kit freely.
- If the Car Kit had paired with your phone but disconnected, it will connect the paired phone automatically if you turn on the Car Kit again within operation range.

#### Disconnecting

When you need to disconnect your Car Kit, please follow the steps as below:

- From your mobile phone: Select "Disconnecting" on the Bluetooth device list from your phone's Bluetooth menu.
- From the Car Kit: Power off the Car Kit, and repeat the pairing and connecting steps above to connect with other Bluetooth devices.

#### Answering a Call

When receiving a phone call, press MFB once.

#### Ending a Call

Press MFB once

#### Rejecting a Call

Press and hold the MFB for 3 seconds

#### Voice Dialing

In STANDBY MODE, press MFB once and say the voice tag as soon as you hear the tone. (Ensure your phone supports voice dialing function, and you have recorded the voice tag into your phone. See the user guide of your phone for instructions.)

#### Last Number Redialing

In STANDBY MODE, press MFB twice.

#### Adjusting Volume

Press V+ or V- to adjust the volume to meet your need. (It will beep when it reaches the max vol or minimum vol.)

#### Mute/Un-mute the Microphone

During a call, press and hold the Mute Button for 3 seconds.

Press and hold the Mute Button for 3 seconds again to un-mute the microphone and resume the conversation.

#### Delete Pairing Record on the Car Kit

Press and hold V+ , V- and MFB simultaneously for 3 seconds until the indicator light flashes red twice and hear a beep.

#### Transfer a Call

1. Transfer a call from Car Kit to mobile phone: During a call, press V+ and V- for 3 seconds simultaneously, the call is routed to your phone.

2. Transfer a call from a mobile phone to the car kit:
- a. When the mobile phone keeps connection with the carkit, press V+ and V- for 3 seconds simultaneously, and the call is routed to your carkit. (both two-link connection and single connection can be realized.)
  - b. When the mobile phone disconnects with the carkit, press MFB once to route the call back to your carkit. (Only single connection can be realized.)

**Note:** It does not guarantee all the mobile phones can realize the above functions due to different mobile technology.

#### Two-link function operates:

1. Pair your carkit with the 1st mobile phone, then turn off the car kit.
2. Repeat the pairing procedure for the 2nd mobile phone.
3. Select "BK063RD" from the found devices list of the 1st mobile phone and make the connection.
4. When the headset is answering the calling from A mobile, and there is a coming call from B mobile phone, press MFB once to answer the B mobile phone and hold the phone call from A mobile. You can press MFB once to transfer a call between A and B mobile phones. When you want to end the retained calling, press MFB twice.

**Note:** It does not guarantee all the mobile phones can realize the above functions due to different mobile technology.

#### Care and Maintenance

- Do not use abrasive cleaning solvents to clean the Car Kit.
- Do not allow the Car Kit to come into contact with sharp objects as this will cause scratching and damage.
- Be sure to store the Car Kit in a dry place, free from extreme temperatures, humidity and dust.
- Never place or store the Car Kit over the area of automobile's safety airbag deployment, as it may cause serious injury if a safety airbag deploys.

#### Additional Statements

- The Car Kit is compliant with the specified Bluetooth version. It does not guarantee compatibility of all functions on every Bluetooth enabled device.
- Please check your device's user manual for compatibility and functionality.
- Charge the Car Kit under any status to a reset.
- The Car Kit will turn off automatically if it can not be connected with any Bluetooth devices within 20 minutes.
- The Car Kit will beep when operates successfully, but this may be too low to hear.
- The above operations may vary due to different devices.
- Manufacturer reserves the right to final explanation of all the above statements.
