How to use the Bluetooth speaker
1. The Bluetooth speaker shows a long beep when connecting the paired device automatically while it is electrified. If failed, the LED will be in blue flashing twice every second; while paired successfully, the LED will flash twice every 4 seconds. If the pairing failed in 20 seconds, the speaker will search again and the LED light will flash once every second. Once other device finds the Bluetooth speaker, you need to enter passkey. The name of Bluetooth speaker is "BT Audio SPK" and passkey is "0000". It will beep once when paired successfully.

2. While paired successfully, the Bluetooth speaker will play music in Computer or other portable device. You can use the three buttons to play/pause/backward/forward, VOL+/VOL-.

3. While insert into 3.5mm audio plug, the Bluetooth function will automatically disconnect and enter into AUX-in mode, so the Bluetooth speaker can also be used as a portable 2.1 speaker too.

4. When the Bluetooth speaker is running out of the battery, the sound becomes diminishing or cracked, please charge the Bluetooth speaker or use new battery.

5. The mini USB port is used only to charge the Bluetooth speaker. You can use USB port of computer or other chargers with voltage 4.5-5.5V for safty. Over-voltage may cause dangerous.

6. The LED is red while charging and will turn off automatically when fully charged. If the speaker is working while charging, then pink and red LED will flash in turn. If use line-input function while being charged, the LED will flash pink.

7. While use line-input function, the Bluetooth speaker can be used as a 2.0 portable speaker. Please control all functional buttons play/pause/backward/Vol+/Vol- from your devices directly but not this bluetooth speaker.

NOTES
1. The bluetooth speaker will pair again in 20 seconds when disconnected or power off.

2.Most brand bluetooth devices can connect this Bluetooth speaker automatically once both turned on after paired well; Few brand moblie phones can not connect automatically, then you need manual operation.

3.When connected with brand bluetooth devices, Our bluetooth speaker works well with main functional buttons Play/Pause, Backward/Forward, but some mobile phones can not control all the buttons, only can play VOL+/VOL-.

4.If your device breaks off when playing music, you need to reactivate your bluetooth and press PLAY/PAUSE botton. Then they will reconnect soon. You needn't restart our bluetooth speaker.

Additional Statements
1, The name of this bluetooth speaker can be amend as customer's appointed name.
2. There are black/red/blue color available, and black is most popular now.
