

**MAGNETEK**  
MATERIAL HANDLING

March 31, 2009

Federal Communications Commission  
Authorization and Evaluation Division

Confidentiality Request regarding application for certification of FCC ID: TNE-430OPEN2.

Pursuant to Sections 0.457 and 0.459 of the Commission's Rules, we hereby request confidential treatment of information accompanying this application as outlined below:

<b>Exhibit Type</b>	<b>File Name</b>
Schematic, Block Diagram, Parts List, User Manual	TNE-430OPEN2 Schem, TNE-430OPEN2 BikDia, TNE-430OPEN2 PartsLst, TNE-430OPEN2 UserMan

The above proprietary exhibits above are all trade secrets of Magnetek specifically the schematics and circuit layout, BOM and component selection, Pictures that included the size and shape of the module, and Users Manual. All of these contain specific information including our main RF foundation (CC1020), philosophy of standardizing throughout our products, and our proprietary protocols which are described in the manual.

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these materials may be harmful to the applicant and provide unjustified benefits to its competitors.

Since this is an LMA for installation in Magnetek's product only and is not provided to the consumer, the user's manual is an internal document, which includes proprietary information including circuit details held confidential in other exhibits. The user's manual is very technical and is not provided to the consumer as the consumer cannot service the device.

The applicant understands that pursuant to Section 0.457 of the Rules, disclosure of this application and all accompanying documentation will not be made before the date of the Grant for this application.

Sincerely,

A handwritten signature in black ink, appearing to read 'W. Dulin'.

Chris Dulin
