

AirTight Networks, Inc.

Federal Communications Commission
Authorization and Evaluation Division

Declaration of Product Modifications

This is requesting a Class II permissive change for FCC ID: TOR-SS300ATC60
Originally granted on 09/18/2013.

The major change filed under this application is:

- Add the frequency band from 5250-5350MHz and 5470-5725MHz by software.
- All other hardware is identical with original granted.

Sincerely,

.....
