

## Specifications for the label and sticker applied to the RPT TW223

### 1. Serial number and HVIN sticker

On the repeaters, the model and serial numbers appear on a sticker applied to the side of the unit as shown in the picture below:

The following drawings show examples of the labels (1.4" long by 0.5" high) for the new model numbers:

For line powered models:

**Model: TW-191A**

SN: E2000BF9

For solar powered models:

**Model: TW-191S**

SN: E2000B22

**Model: TW-195S**

SN: E2000B29

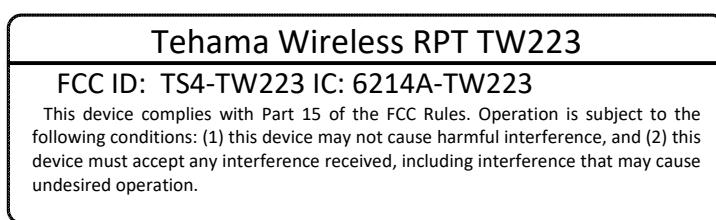

## 2. Product name and IC certification number

The text showing both the Product name and ISED certification number is embossed on the back piece of the plastics as shown in the picture below:

Requirements: Size: 0.9 X 3 inches Material: Steel Insert
