

Class II Permissive Change

Company: Exalt Communications, Inc.
Address: 580 Division St.
Campbell, CA 95008

Product: EX-2.4i-16 and EX-2.4i
FCC ID: TTM-102P40I
IC ID: 6254A-102P40I

Type Designation: FCC CFR 15.247
IC RSS-210

This letter is to identify the changes to the EX-2.4i that make it an EX-2.4i-16. The intentional transmitter that was used in the EX-2.4i is the same transmitter that is used in the EX-2.4i-16. The digital board is the same in both systems. The interface card in the EX-2.4i-16 has changed to allow the connection of up to 16 T1/E1s. The enclosure size has changed to accommodate the change in the interface card.

These changes may potentially affect the unintentional transmitter characteristics but do not affect the changes in the intentional transmitter. Therefore, we declare that they are permitted as a Class II Permissive Change.

A handwritten signature in blue ink that reads 'Lisa Moratti'.

Name: Lisa Moratti

Date: February 26, 2007

Title: Compliance Manager
