

External Photographs of Widex Model D-FA

Side view	
Opposite side	
Front view	

Back view	 <p>A black medical device, possibly a syringe or catheter, is shown from the back. It has a clear plastic cap on the left end. A small label on the black body reads "P-FA440" and "00009". A red rectangular mark is visible on the right side. A ruler is placed below the device, showing markings from 1 to 5 cm.</p>
Top side	 <p>A black medical device is shown from the top side. It has a clear plastic cap on the left end. A ruler is placed below the device, showing markings from 1 to 5 cm.</p>
Bottom view	 <p>A black medical device is shown from the bottom view. It has a clear plastic cap on the left end. A ruler is placed below the device, showing markings from 3 to 7 cm.</p>
