#### Storage for the Nano USB Receiver

The nano USB receiver can be stored in the storage slot on the bottom of the mouse.

#### Software Instructions

Please download the software on [www.redragonzone.com](http://www.redragonzone.com) for this mouse. You can get more functions and settings after software installation.

1. The DPI value can be set from 100 to 26000 DPI.
2. Continuous keystroke function: Set the number of clicks and delay time.
3. Backlight mode of the LOGO: Steady ON/OFF.
4. Backlight mode of the side edge: Steady/OFF.
5. 10 of the mouse buttons can be remapped to various actions.

#### How to Recharge the Battery

When the battery is low, please recharge the batter in time.  
Take out the USB to USB C cable and connect the mouse and any USB power output port. While the battery is under recharging, the scroll wheel lights up and flash firstly in red (if the battery is very low), then in yellow and finally lights steadily on in green when the battery is fully recharged. Meanwhile the side edge light lights up and expands from back to front in red till the battery is fully recharged.

The battery can be recharged for more than 300 cycle times. And you can use the mouse while it is under recharging.

Note:Slide the power switch on the bottom of the mouse to OFF for long term storage.

**CAUTION: DO NOT CHARGE THE MOUSE BY WALL PLUG, INPUT VOLTAGE MAX 5V/2A.**

#### How to Reconnect the Mouse the with the USB Receiver

The mouse may lost connection with the USB receiver for some occasional reasons such as strong magnet, violent vibration. So you may need to reconnect the mouse with the USB receiver. In this case, unplug the receiver and plug it back again. Slide the power switch on the bottom of the mouse to ON or ECO, press and hold the Left+Middle+ Right button at the same time till the scroll wheel lights up and flash in yellow green. It will flash for about twenty seconds and then change back to the previous light effect. The reconnection will be completed and you can use the mouse then.

#### FAQ

1. If the mouse is not responding, please check whether the mouse is plugged correctly in the corresponding computers USB port, or try another USB ports.
2. If the mouse is moving slowly, jumping or with delay, please try another surface. Dark, dirty, un-flat, bright surfaces may affect the performance of mouse. Mouse pad strongly recommended.

#### FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help
- This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### California Proposition 65

**WARNING:** Risk of Cancer from [Name of one or more chemicals known to cause cancer] And Reproductive Harm From [Name of one or more chemicals known to cause reproductive toxicity] Exposure - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

#### BATTERY SAFETY GUIDELINES

DO NOT replace the battery with a different model.  
DO NOT use this product if the battery shows signs of damage including, but not limited to tearing, deformation, leakage, or the smell of electrolytic material.  
DO NOT touch the battery if material is leaking and seek immediate medical attention if any material comes into contact with your skin or eyes.  
DO NOT expose the battery to liquid, heat sources, electricity (outside of the product itself), or other non-standard operating condition.  
DO NOT remove the battery except for proper disposal and recycling as required by local laws and regulations.  
DO NOT impact, bend, alter, dissemble, or otherwise damage the battery as the contents are volatile, hazardous, and can be harmful.

#### CAUTION

Failing to follow all safety guidelines may result product damage, explosion, fire, and/or electric shock.
