FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

OS support
Windows XP/Vista/Win7/Win8/Win10

How to connect the keyboard with a computer
Wired Connection
1. Take out the USB A to USB Type-C cable in the package and connect the keyboard with your computer.
2. The computer will recognize and configure the keyboard automatically.
3. The keyboard will be ready for use when the configuration is finished.
4. Once the keyboard is powered up, charging begins. It may take about 5 hours for the keyboard to be fully recharged.

Wireless Connection
1. Slide the ON/OFF switch on bottom of keyboard to ON.
2. Take out the nano USB receiver in the package and plug it into an available USB port on your computer. The computer will recognize and configure the keyboard automatically.
3. The keyboard will be ready for use when the configuration is finished.
4. In some cases, you may need to pair the keyboard. Turn on the keyboard and press [FN]+[P] , plug the USB receiver into any available USB port on your computer within 20 seconds. The keyboard will be paired automatically. Make sure the keyboard has enough power before doing so.
5. The indicator will flash when the battery is low. Please recharge the keyboard in time or it will turn off automatically soon.

FAQ
1. If the keyboard doesn't respond, please check if the keyboards USB cable is correctly inserted into the corresponding USB port on the computer, or try another USB port on the computer.
2. If you spill liquid on the keyboard, please remove keyboards USB cable from the computer immediately. Wipe up excess liquid and put the keyboard in a warm place (for instance, under a lamp) to let the keyboard dry naturally before using again.
