December 22, 2006

Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

The purpose of this letter is to request the acceptance of Class II permissive changes to the FCC ID: TUZ-S-100. This letter will depict the differences between the SafeView Scout 100 product that was submitted and approved by the FCC and that which we would like to submit as a permissive change II. The primary design change was to reduce the cost of the imaging system mast electronics. In the process of cost reduction, a new horn antenna with similar gain to the original product has been used.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ruth E. Madsen'.

Ruth E. Madsen  
Systems Engineer  
L-3 Communications, SafeView, Inc.
