TriMark Corp.  
500 Bailey Ave.  
New Hampton, IA 50659

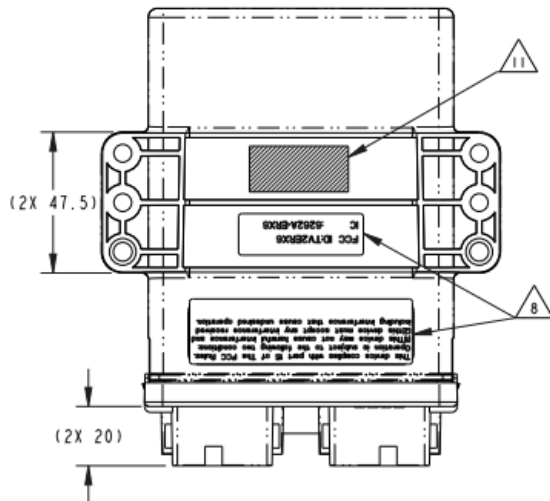

## Purpose

TriMark is seeking a new FCC grant for our 12/24 Volt sealed PKE controller.

- We have existing grants TV2ERX4 & TV2ERX5 with similar products that are 12V only.
- Changes were made to the controller to make it compatible with 12 and 24 V vehicles.
- The “LF” module is the same PCB and software as the 12v only assembly

## • Label Examples, 2 different customers Form 1

Drawing and Picture. The drawing is showing the new TV2ERX6, the photo is a prototype and not yet in Production.
