

Warranty

We guarantee that the BTE Technologies, Inc. rehabilitation products are free of manufacturer defects in both workmanship and material. We will replace or repair defective parts or equipment for a period of time and in accordance with the conditions set forth below:

This warranty covers the structure and framework for 1 year of normal institutional use. All mechanical components including bearings, bushings, pulleys and glides are warranted from manufacturer defects in both workmanship and material for a one-year period. Cords and padding are covered for a 1-year period under normal use.

This limited warranty is in lieu of all warranties, expressed or implied and all other obligations or liabilities on the part of BTE Technologies Inc. We neither assume nor authorize any person to assume any other obligation or liability in connection with the sale of this product.

Under no circumstances shall BTE Technologies, Inc. be liable by virtue of this warranty or otherwise, for damage to any person or property what so ever for any special, indirect, secondary or consequential damage of any nature however arising out of the use or inability to use this product.

This limited warranty applies only while the BTE Technologies, Inc. product remains in the possession of the original purchaser and has not been subject to accident, misuse, abuse, unauthorized modification, failure to follow instructional use, failure to do proper maintenance, incorrect adjustments or failure due to cause beyond the manufacture's control.

Disclaimer

The information presented in this manual is given in good faith and is to the best of our knowledge accurate. However, anyone who uses this information in any way does so entirely at his or her own risk. Neither BTE Technologies, Inc., its officers nor their representatives can accept any responsibility for any damage or injury incurred as a result of information presented here except under the terms of the product warranty.

Class A Digital Device

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
