SUBJECT: FCC Application for (FCC ID: TV74011GS-5HQ2HD)

Applicant: Mikrotikls SIA

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: TV74011GS-5HQ2HD originally granted on 08/02/2018 (date).

We MikroTik, want to modify the authorized equipment for below changes:

- U-NII-2A, U-NII-2C bands and DFS master functions are enabled by embedded software
- 160 MHz Bandwidth channels 50, 114 are enabled by embedded software

Except for the changes above, no other modification is performed. The device stays electrically identical to original authorization. Also, the change does not have any impact on the approved radio parameter such as power, frequency range, modulation etc.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,
Edmunds Zvegincevs
Compliance Engineer at MikroTik
